

# Gratings

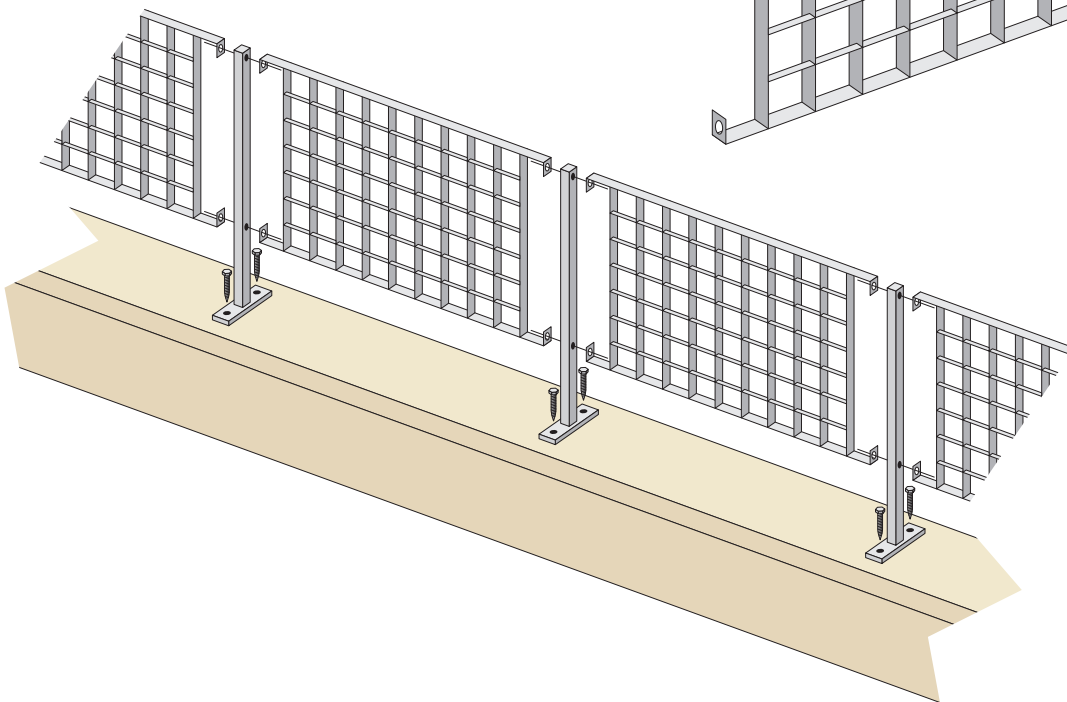

## for fences

### ➤ technical data sheet

Gratings for fences can be manufactured in pressed or press-welded, either galvanised or painted with RAL paintings. They are easy to assemble, very resistant, as well as pleasant to watch.

### ➤ Principle of assembly

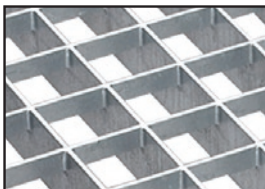

### • Most common meshes of the bearing bars

- Press-welded gratings

**Base of the BB:**  
33.33 mm / 44.44 mm / 66.66 mm / 99.99 mm in 25 x 2 or 30 x 2.

**Base of the TB:**  
33.33 mm / 44.44 mm / 66.66 mm / 99.99 mm in 10 x 2.

Please contact us for more bases and meshes.

- Press-welded gratings

**Base of the BB:**  
68.6 mm in 25 x 2.

**Base of the TB:**  
127 mm for a diameter of 5 mm.
